BruCork™

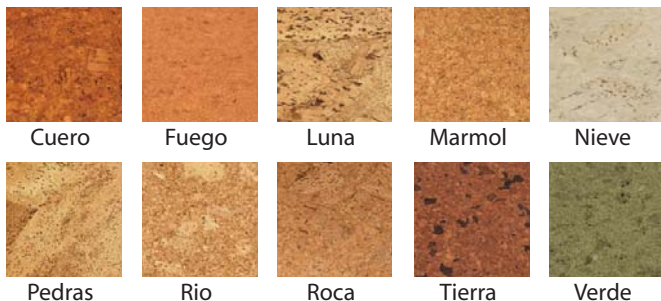

Renewable Cork Flooring

Natural Cork Flooring Provides Beauty and Convenience

BruCork™ is a stylish green flooring solution with a patented design for easy installation and reuse!

This convenient, durable flooring offers the natural beauty and convenience of real cork at a cost-effective price. BruCork's innovative design provides hassle-free installation, and it's completely environmentally friendly!

- Naturally beautiful, comfortable, durable and low-maintenance
- Patented tongue-and-groove click installation system provides:
 - Rapid installation with no adhesives
 - Tighter joints for less visible seams
 - Ability to remove planks for repair or reconfiguration
- 1' x 3' planks with a surface layer of 100% high-density cork. Weight 1.60 lbs. per sq. ft.
- Made from the renewable bark of cork oak trees
- Completely green manufacturing process
- Finished with environmentally-friendly U.V. cured acrylic
- Can be installed over a slab or almost any existing surface
- Impervious to mold, mildew and moisture
- Available in ten attractive patterns and colors
